TECHNICAL SKILLS

Frontend

React | Next.js | TypeScript | JavaScript | HTML5 | CSS3 | Tailwind CSS | Vite

Backend & APIs

Python | Django | Node.js | Express | REST APIs | PHP | JWT Auth | WebSockets

Databases

PostgreSQL | MySQL | MongoDB | Supabase

Design & Tools

Figma | Responsive Design | UI/UX | Git | Vercel | Recharts

LANGUAGES

Arabic - Native

English - Professional

French - Intermediate

CERTIFICATIONS

- **Web Development**
  I.S.E.E.G - 2024

SUMMARY

Full-Stack Developer and UI/UX Designer with a Master's in Distributed Systems & Networks and a specialized professional certification in Web Development. I build end-to-end digital products, bridging the gap between scalable backend architecture and intuitive interfaces.

What sets me apart is my ability to approach projects from both technical and design perspectives, ensuring that robust systems are matched with seamless user experiences. I believe the best software solves real problems in the simplest way possible.

EXPERIENCE & PROJECTS

Vigilant - E-Commerce Admin Dashboard

- Built a full-stack admin platform with React 18 & Django REST Framework, featuring interactive analytics (Recharts), inventory/order management, and a database manager with SQL execution.
- Implemented JWT auth with token blacklisting, session tracking, PDF/Excel/CSV reporting, and automated notifications via Django signals.

Nexus - All-in-One Collaboration Platform

- Engineered a real-time team collaboration platform (React, Node.js, Socket.io) for instant messaging, task management, and room-based access control.
- Added a 30-day recovery system for deleted items, PDF/Excel reporting engine, and a live admin dashboard with server metrics.

E-Commerce Platform

- Developed a responsive storefront with product filtering, wishlist, persistent cart, and a multi-step authentication flow (React, Vite).
- Added a blog section with bookmarks and a "Frequently Bought Together" bundle system.

AI Resume Analyzer

- Designed an AI-powered resume analyzer (Next.js, TypeScript, Groq AI) to extract skills and calculate ATS compatibility scores.
- Implemented PDF parsing, job matching, multi-language support (Arabic/English), and an analytics dashboard with Recharts.

Personal Portfolio Website

- Created a modern, responsive portfolio (React, Tailwind CSS, Framer Motion) with an admin panel for dynamic project management (MongoDB) and a contact form.

EDUCATION

- **Master's in Distributed Systems & Networks**
  University of 20 August 1955, Skikda | 2020-2022
- **Licence in Information Systems**
  University of 20 August 1955, Skikda | 2017-2020
