SUMMARY

Full-Stack Developer and UI/UX Designer bridging the gap between visual creativity and coding precision to build impactful digital products. Combining a solid academic foundation in Computer Science and Distributed Systems with a specialized professional certification in Web Development, I possess a deep understanding of software engineering and scalable technical architectures. I believe the best software solves real problems in the simplest way.

EXPERIENCE & PROJECTS

ERP System / Enterprise Admin Dashboard

- Built an interactive ERP dashboard system using React.js frontend and Node.js with MySQL for scalable backend data management.

All-in-One Collaboration Platform

- Engineered a real-time team collaboration workspace with seamless communication features, leveraging WebSockets for instant updates.

E-Commerce Platform

- Developed a responsive full-stack online store featuring a shopping cart and payment gateway using React and Django.

AI Resume Analyzer

- Designed an AI-powered resume analysis tool integrating NLP to provide actionable improvement suggestions.

Personal Portfolio Website

- Created a modern interactive portfolio using React and Tailwind with creative animations and fully responsive layouts.

EDUCATION

- **Master's in Distributed Systems & Networks**
  University of 20 August 1955, Skikda | 2020-2022

- **Licence in Information Systems**
  University of 20 August 1955, Skikda | 2017-2020
